Dallas, Texas 75202-2733

NOV 17 2006

Dear Mr. McBride:

This is in response to Audra Fountain's e-mail dated October 13, 2006, that requested updated cost recovery documentation for the **Westbank Asbestos, Marrero, Louisiana, (60Y6), EPA FACILITY No. LAD985170711** Superfund site. Enclosed are a cost summary and redacted documentation to support costs incurred by the Agency for Toxic Substances and Disease Registry (ATSDR) in conducting health-related activities pursuant to Section 104 (i) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) (42 U.S.C. 9604[i]). Costs associated with these activities are response costs recoverable under Section 107 (a) of CERCLA (42 U.S.C. 9607 [a]).

The cost summary was compiled in accordance with the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) (40 C.F.R. Part 300), and Section 90.14 of ATSDR's regulations (42 C.F.R. Part 90). ATSDR requests that the information provided be included in the Environmental Protection Agency's (EPA) cost recovery package to be submitted to the Department of Justice.

Costs provided in this cost recovery package are through the period ending **September 30, 2006**, and update the costs contained in our previous cost recovery packages dated **November 22, 2002, November 21, 2003, November 18, 2004, and November 10, 2005**. ATSDR has ongoing responsibilities at active Superfund sites. Consequently, additional costs may be incurred in the future.

Please note that the indirect costs for fiscal year 2006 are calculated using a provisional indirect cost rate. Also, please contact me or John Ehrmann at (404) 498-0050 if you have questions concerning this cost recovery matter.

Sincerely yours,

Thomas A. Achinger
Betty N. Jones
Cost Recovery Team Leader

Enclosures

George Pettigrew, ATSDR, DRO

THE AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY

Cost Summary

Costs for the period October 1, 2005, through September 30, 2006

for

**WESTBANK ASBESTOS
Marrero, Louisiana
EPA FACILITY No. LAD985170711
(60Y6)**

Date prepared: November 17, 2006

Narrative Cost Summary Report:

- 1. The Agency for Toxic Substances and Disease Registry (ATSDR) has incurred additional payroll costs of at least \$18.82 for the period ending September 30, 2006.**
- 2. The Agency for Toxic Substances and Disease Registry has incurred additional indirect costs of at least \$117.00 for fiscal year 2006. The indirect costs for fiscal year 2006 are calculated using a provisional indirect cost rate.**

TOTAL ADDITIONAL COSTS \$ 135.82

Summary of ATSDR's costs for site 60Y6 submitted to EPA Region VI:

\$ 74,992.24	Costs provided in our letter dated November 22, 2002
436.54	Supplemental costs included in Report I of our letter dated November 21, 2003
1,099.53	Additional costs included in Report II of our letter dated November 21, 2003
0.00	Supplemental costs included in Report I of our letter dated November 18, 2004
0.00	Additional costs included in Report II of our letter dated November 18, 2004
29.75	Supplemental costs included in Report I of our letter dated November 10, 2005
0.00	Additional costs included in Report II of our letter dated November 10, 2005
<u>135.82</u>	Additional costs included in this update
\$ 76,693.88	Total costs provided to date

[illegible]

EFFECTIVE OCTOBER 2, 1994
COST RECOVERY TIMESHEETS
REVISED ATSDR ACTIVITY CODES AND DEFINITIONS

CODE DEFINITION

A01 EXPOSURE INVESTIGATIONS

Exposure investigations are site-specific investigations carried out for the purpose of further characterizing the extent of human exposure for improving public health decision making. The site-specific information may include results of environmental sampling and biologic testing and evaluation of existing health outcome data. Information obtained from the investigations is included in public health assessments, health consultations, health studies, and public health advisories.

A02 EXPOSURE-DOSE RECONSTRUCTION

This method estimates dose based on actual or potential human contact with hazardous substances in the environment. Dose is the amount of contaminant that is absorbed or deposited in the body of an exposed individual over a specified time.

These activities, which support public health assessments and health consultations, include site investigations to determine environmental contamination, exposure pathways, and population exposure; spatial analyses; environmental modeling; and presentation of analyses to state, federal, and local agencies.

B00 PUBLIC HEALTH ASSESSMENT

A public health assessment is the evaluation of data and information on the release of hazardous substances into the environment in order to assess any current or future impact on public health, develop health advisories or other recommendations, and identify studies or actions needed to evaluate and mitigate or prevent human health effects.

Activities include preliminary public health assessment activities, Geographical Information System (GIS) analysis, meetings and telephone calls to discuss the site, site visits, community involvement activities, collection of demographic data, and the like.

B01 SITE REVIEW AND UPDATE

This is the re-evaluation of a site's current conditions to ensure that the original public health assessment identified all significant human exposures or health concerns. The activity is an effort to ensure the usefulness of the public health assessment document.

EFFECTIVE OCTOBER 2, 1994

<u>CODE</u>	<u>DEFINITION</u>
-------------	-------------------

C00 PETITIONED PUBLIC HEALTH ASSESSMENT

A petitioned public health assessment is a health assessment conducted at the request of a member of the public. A team of scientists investigates and gathers information from appropriate local, state, and federal agencies. A screening committee reviews the data to determine if there is a basis for conducting a public health assessment.

D00 PUBLIC HEALTH ADVISORY

A public health advisory is a statement of findings that a substance released into the environment poses a significant risk to human health. Recommended measures to reduce human exposure and to eliminate, or substantially mitigate, significant risk to human health are included in the statement.

H00 HEALTH CONSULTATION

A health consultation is a written or verbal response from ATSDR to a specific question or request for information pertaining to a hazardous substance or facility. It includes reviewing medical or health information to provide expert medical, epidemiologic, or public health assistance.

Q00 MEDICAL WASTE REPORT FOLLOW-UP ACTIVITIES

In response to citizen inquiries, activities include review of EPA documents referencing the ATSDR report and consultations relating to the Agency report.

E00 NATIONAL EXPOSURE REGISTRY

The National Exposure Registry is composed of chemical-specific subregistries of eligible persons who came in contact with specific substances at selected locations. Cost recoverable activities may include duties or activities involved in the development, implementation, and maintenance of subregistries to the National Exposure Registry or related preliminary or follow-up activities.

EFFECTIVE OCTOBER 2, 1994

CODE DEFINITION

J00 HEALTH STUDIES/EPIDEMIOLOGY STUDIES

Epidemiologic studies are designed to evaluate the causal nature of associations between human exposure to hazardous substances and disease outcome by testing scientific hypotheses. These studies do have comparison populations.

J01 HEALTH STUDIES/HEALTH INVESTIGATIONS

These human health studies include biological indicators of exposure studies, biomedical testing, case studies, cluster investigations, community health investigations, and disease and symptom prevalence studies. These studies may or may not have comparison populations.

J02 HEALTH STUDIES/HEALTH STATISTICS REVIEW

This is a review and analysis of existing data to determine abnormal morbidity or mortality. These reviews are classified by data source information, which may include birth certificates, death certificates, and state and local government records.

J03 HEALTH SURVEILLANCE ACTIVITIES

Health surveillance activities evaluate trends in adverse health effects or exposure over time. Health surveillance at ATSDR includes five types of surveillance: Hazardous Substances Emergency Events Surveillance Systems (HSEESS), hazardous waste worker surveillance, site-specific surveillance, long-term relocation surveillance (a subset of site-specific surveillance), state-based surveillance, and tracking systems, including the voluntary residents tracking system.

V01 HEALTH PROFESSIONAL EDUCATION

These activities are designed to improve the knowledge, skill, and behavior of health professionals concerning medical surveillance, screening, and methods of diagnosing, treating, and preventing injury or disease related to exposure to hazardous substances. They may include presenting workshops and short courses, supporting curriculum development and applied research in the area of environmental health, and increasing the availability of information on hazardous substances to physicians and other health professionals.

EFFECTIVE OCTOBER 2, 1994

CODE DEFINITION

V02 COMMUNITY HEALTH EDUCATION

These activities are directed toward the community near a hazardous waste site and designed to assist the community in understanding its potential for exposure, or assessing adverse health occurrence in the community, for the purpose of preventing or mitigating exposure to hazardous substances. Activities may include disseminating written materials, presenting coordinated programs involving on-site actions and site-specific materials development (prevention oriented), or supporting an on-site health educator.

K00 EMERGENCY RESPONSE

This is a response to a release or threat of release of pollutants and contaminants that may present an imminent and substantial danger to public health or welfare.

M00 LEGAL CONSULTATION

This is a consultation with the Office of the General Counsel regarding a specific site.

N00 MANAGEMENT INFORMATION SYSTEMS (SITE-SPECIFIC)

These are site-specific activities involved with ATSDR's Management Information System/HazDat, data analysis, or other Agency information systems.

Indirect Totals:		0.00	0.00
Provisional Indirect Totals:		0.50	117.00
Total Indirect Costs:		0.50	117.00

** - ATSDR includes a provisional indirect cost rate for fiscal year(s) when a final rate has not yet been developed. The provisional rate is the most recent final indirect cost rate. When a final rate is developed for a fiscal year, ATSDR will make appropriate adjustments to reflect the difference between the provisional rate and the final rate in future cost recovery packages.
